

TOFAN BEHERA

Motion Graphics Designer & Front-End Developer

PERSONAL INFORMATION

Full Name: Tofan Behera
Nationality: Indian
Location: Mangalpur, Pipili, Puri, Odisha

LinkedIn: [linkedin.com/in/tofanbehera](https://www.linkedin.com/in/tofanbehera)
Domain: EdTech / Education Technology
Languages: English, Hindi, Odia

OBJECTIVE

A multi-disciplinary digital professional with expertise spanning graphic design, motion graphics, and front-end web development. Dedicated to creating impactful digital products that merge visual storytelling with technical excellence. Currently focused on developing interactive educational platforms and digital learning experiences in the EdTech sector, with a proven ability to translate complex concepts into accessible and engaging user interfaces.

KEY QUALIFICATIONS

- Proficient in front-end development using React, JavaScript (ES6+), and Tailwind CSS to build responsive, high-performance web applications.
- Strong expertise in motion graphics production using Adobe After Effects, Adobe Premiere Pro, and Blender for animated explainers and educational content.
- Solid foundation in graphic design with hands-on experience in Adobe Photoshop and Adobe Illustrator for digital visuals, photo manipulation, and brand assets.
- Experience designing and developing interactive educational platforms, dashboards, and digital learning environments in the EdTech domain.
- Ability to approach projects from both a creative and technical perspective, bridging the gap between design and development teams.
- Strong understanding of UX principles, visual composition, color theory, and responsive design best practices.
- Skilled in visual storytelling techniques that simplify complex topics for diverse audiences.

EMPLOYMENT HISTORY

Front-End Developer

EdTech Organization (Education Sector) | Current Position

- Develop and maintain interactive educational platforms and learning management dashboards using React, JavaScript, and Tailwind CSS.
- Design and implement responsive web interfaces that deliver engaging and accessible digital learning experiences.
- Collaborate with content teams to translate instructional material into interactive digital formats.
- Optimize web applications for performance, accessibility, and cross-device compatibility.
- Integrate motion graphics and animated elements into web products to enhance user engagement.

Motion Graphics Designer

Digital Media / Educational Content Production | Previous Role

- Produced animated explainer videos and motion graphics using Adobe After Effects, Adobe Premiere Pro, and Blender.
- Developed visual storytelling frameworks to communicate complex educational topics in an accessible format.

- Designed and animated 2D/3D visual content for online courses, e-learning platforms, and instructional media.
- Collaborated with subject matter experts to transform technical content into compelling visual narratives.
- Delivered high-quality animation assets within tight production schedules.

Graphic Designer

Digital Design — Early Career | Entry-Level Role

- Created digital visuals, photo manipulations, illustrations, and background graphics using Adobe Photoshop and Adobe Illustrator.
- Developed visual assets for web and digital media, maintaining consistency with brand guidelines.
- Built a strong foundation in visual composition, color theory, typography, and digital design principles.
- Delivered creative assets for diverse clients across print and digital formats.
